DIVISION OF
OIL, GAS & MINING

Dear Wayne:

We have reviewed PAP Amendment, Supplemental Information, Addition of New Crusher to be Approved Temporary Coal Screening Facility, Genwal Coal Co., Crandall Canyon Mine, ACT/015/032 - 88A, Folder #2, Emery Co., Utah.

The plans submitted by Genwal Coal Company are adequate to show the configuration of the facilities, however, there is no information in the submittal regarding estimated dust emissions.

During the joint Forest Service/DOGN on-site inspection it was discussed that Genwal must provide information from the Division of Air Quality regarding air quality standards and data on dust emissions at each emission point in the proposed facility. The attached letter to the Forest Service from Genwal Coal Company states that this information will be forwarded.

Once we receive this information, we can evaluate the proposal for consent.

Sincerely,

for
GEORGE A. MORRIS
Forest Supervisor

Re: Temporary Crusher

Dear Mr. Morris,

Please find enclosed for your review a sketch showing the layout of our temporary screening and proposed crushing facility as requested by your representatives during our recent meeting in the field.

I will forward to your office copies of the information that Utah Division of Air Quality forwards to me as soon as it becomes available.

If you should have any further questions or comments please feel free to contact me at 801-637-7383.

Sincerely yours,

Andrew C. King
